

tiptel 333

Professional answering machine with caller ID, message transfer and excellent audio quality

The comfortable answering machine tiptel 333 offers a recording capacity of up to 90 minutes with an excellent audio quality. To ensure optimal user guidance and to display the function status a backlit, alphanumeric display has been integrated. The number of every incoming call is shown on the display. By the use of the latest flash memory technology batteries are no longer necessary. Due to an extremely low power consumption (smaller than 1 W) in standby mode the tiptel 333 contributes to environmental protection.

Highlights tiptel 333

- 90 minutes recording capacity
- 4 outgoing messages (1 fixed OGM and 3 individual OGM's)
- Excellent audio recording quality due to low speech compression
- Recording list to play back specific messages
- Message transfer
