VIDEO COLLABORATION

Logitech Video Collaboration Group Portfolio

Logitech® is changing the way teams collaborate, opening new possibilities and eliminating old boundaries by offering a range of brilliantly designed collaboration tools that are so intuitive, people actually love to use them.

Logitech webcams enhance desktop collaboration with high quality HD video, while USB headsets and the P710e mobile

speakerphone delivers sound that's crisp, clear and heard by everyone in the meeting. Plus, the Logitech ConferenceCam lineup provides both razor sharp video and crystal clear audio that is so amazingly affordable—any meeting place can now be a video collaboration space.

USB plug-and-play connectivity makes Logitech Collaboration tools a breeze to

deploy and use within your own familiar computing environment with any video conferencing software application — including the ones you already use. Simply connect a laptop and start a meeting.

From personal workspaces to large-sized conference rooms, Logitech helps enhance collaboration and productivity with tools that adapt to the way people work.
